

November 30, 2020

Dear Lynn-Rose Families,

Over the years Lynn-Rose has grown and continued to add to our programs. We have achieved the status of one of the few private schools in Ontario to be recognized as an International Baccalaureate continuum school, offering three levels of the IB program.

With that achievement, we added the Cognia accreditation which certifies the quality of education that our students receive.

I am pleased to announce that Lynn-Rose Schools has been invited to join (ISP) International School Partnership family of schools. ISP Schools are known for their educational best practices globally.

As a founder of Lynn-Rose, and in an effort to continue the legacy of learning for the next generation, now is the right time to bring in new investors/owners for our schools. I believe it is my responsibility to secure Lynn-Rose and its future. Please welcome **International Schools Partnership** (ISP).

With that said, this change will not affect the daily life at Lynn-Rose. We will continue to operate as normal with the current Head of School, Admin Team, Teachers and Support Staff.

Why is ISP a good fit for Lynn-Rose?

- All ISP schools are unique and continue student learning with the original founding programs, philosophy, and staff.
- ISP is particular when choosing schools that are aligned with their philosophy to ensure that their high standards of education are being met. Lynn-Rose has become one of this elite group of schools.
- ISP is truly dedicated to offering their schools only the best from student learning, parent communication, staff development, significant investments to campus upgrades, and much more.
- Lynn-Rose faculty will enjoy connecting with the ISP family of schools across the globe to collaborate with and to achieve the best learning practices possible.

Lynn-Rose is excited to be part of this amazing team.

Sincerely,

Ms. Attard
Founder, Lynn-Rose School
